SWISS COMPLIANCE

DYNAMIC 2% DAILY ROI FORMULA

Verified decaying balance model generating sustainable daily cashflow until 200% is claimed.

THE MATHEMATICAL DECAYING FORMULA

Daily Payout = 2.00% × Remaining Balance

Remaining Balance = Balance(t-1) - Daily Payout

Unlike legacy systems that promise flat rates until sudden bankruptcy, **Crypto Finance** pays 2% on the decaying principal pool.

This mathematically ensures hundreds of days of stability while systematically paying out exactly **200% (2X)** of your stake!

\$100 STAKE LIVE WALKTHROUGH

Dual Return Math: 4.00% Daily on Main Capital equals 2.00% Daily on the 2X Contract Pool.

DUAL PERSPECTIVE ROI MATH

1. MAIN CAPITAL PERSPECTIVE

4.00% Daily Yield

On your **\$100.00 Main Capital**, your daily payout starts at **\$4.00 USDT / day** (representing an exact **4% daily ROI**).

2. 2X CONTRACT POOL PERSPECTIVE

2.00% Daily Release

Your \$100 stake unlocks a **\$200.00 (2X) Pool**. The smart contract releases **2.00% daily**: $\$200.00 \times 2\% = \4.00 USDT .

★ **Mathematically Equivalent: 4% of Principal = 2% of 2X Contract Allocation Pool**

STEP-BY-STEP DAILY CASHOUT

Day 1: $\$200.00 \times 2\%$ = **\$4.00** (After Cashout: \$196.00)

Day 2: $\$196.00 \times 2\%$ = **\$3.92** (After Cashout: \$192.08)

Day 3: $\$192.08 \times 2\%$ = **\$3.84** (After Cashout: \$188.24)

Day 4: $\$188.24 \times 2\%$ = **\$3.76** (After Cashout: \$184.47)

→ **Continues daily until full \$200.00 is extracted over 525 Days!**

CAPITAL VS. DURATION (AUDITED)

◆ ◆ ◆

Payouts run until remaining balance reaches half a cent (\$0.005).

STAKE	2X POOL	ACTIVE DURATION	TOTAL EXTRACTED	STATUS
\$2.00 (Min)	\$4.00	331 Days	\$3.999 (100%)	AUDITED ✓
\$20.00	\$40.00	445 Days	\$39.995 (100%)	AUDITED ✓
\$100.00	\$200.00	525 Days	\$199.995 (100%)	CORE

THE 35-DAY COMPOUNDING ENGINE

◆ ◆ ◆

Reinvesting 2% daily returns compounds your capital to 2X (100% growth) in exactly 35 days.

MATHEMATICAL CERTAINTY

35 DAYS

TO DOUBLE YOUR PRINCIPAL

$(1.02)^{35} \approx 2.000$

2% Daily Exponential Compounding Formula

\$2,000 COMPOUNDING TIMELINE

Day 01: Initial Reinvest \$2,040.00

Day 15: Acceleration \$2,691.75

Day 25: Massive Surge \$3,281.21

Day 35: 2X DOUBLING! \$3,999.78

2X CAP LOCK RULE & 4X PROFIT

◆ ◆ ◆ Institutional safeguard preventing infinite compounding runaway, unlocking 400% extraction.

THE 2X CAP LOCK RULE

When compounding increases balance to near **2X of initial stake (\$3,999.78 on \$2,000)**, compounding enters an automated safety freeze.

MANDATORY REQUIREMENT

The investor MUST take at least 1 withdrawal before compounding can resume!

400% (4X) MAX EXTRACTION

By doubling your principal in 35 days and then switching to daily cashouts, withdrawals are paid from the doubled pool!

TOTAL PROFIT POWER

~400% (4X)

**\$1,000 Stake → Compounded → Extracts
~\$4,000 Total Cash!**

DIRECT REFERRAL REWARD

Generous instant commission rewarding network creators for expanding the ecosystem.

FLAT INSTANT CASH CREDIT
